Step 1 of 4: Hardware Check

Speak aloud in a normal voice - make sure the volume meter moves as you speak. After verifying that your microphone is working properly click the next button.

Next

You will be asked to test your device audio, when complete, hit next.

Step 2 of 4: Ready

 You're now ready to take your interview. If you haven't used InterviewStream before, [click here](#) for instructions on the InterviewStream process. Otherwise, click the button below to continue.

Back Proceed to My Interview

Once your device is tested, you are ready to practice your interview skills.

InterviewStream

Once you are finished, go back and watch your interview.

- What could you improve?
- How many times did you say 'uh' or 'um'?
- Did you make good eye contact (by looking straight into the camera)?
- Did you touch your face or hair?
- How does your background look? (remember video interviews might be the first step in the process, so have a good quiet place to do one).
- Do you hear pets or children in the background?

Sometimes it is the little things that make the biggest difference.

Practice makes perfect!
