THE CITL REPORT

931-372-3675 | citl@ntech.edu | ntech.edu/citl

Mid Term Grades

Our mid-term grading period serves as a crucial checkpoint in the learning process, providing valuable insights into each student's performance and growth. Mid-term grading allows faculty to recognize student efforts and providing constructive feedback to help students continue on their path to success. It also serves as a moment of reflection for both students and educators, allowing us to identify areas where additional support and improvement may be needed. As we enter the midpoint of the semester, the CITL is here to provide support for [entering grades](#) in iLearn, [mid-term course revisions](#), and more.

October 17, 2023

Campus Pulse

During this session, we will present insights from data gathered through the Institutional Dashboard and our latest round of Small Group Instructional Diagnostics (SGIDs). We will also discuss common themes across campus that students identified as pertinent to their overall learning experience and hear from a panel regarding what we should know about our current student population.

October 24, 2023 **Enhancing Your Online Course With YuJa Media**

Join us for a discussion and explore the benefits of embedding YuJa videos in your online courses to engage your students effectively. In this session, we will demonstrate how to add quizzes within your videos to assess comprehension and encourage active learning. We will also hear from faculty who have successfully integrated YuJa into their courses, gaining valuable insights and practical tips.

How To Prevent Students From Ghosting

It's that spooky time of year when some students begin to disengage. In this session, we will discuss ways for faculty to be proactive and prevent at-risk students from "ghosting" by having strong engagement and communication strategies in place for your courses.
