

## **Institutional Effectiveness Report 2021-2022**

**Program:** Fine Arts BFA

**College and Department:** College of Fine Arts - School of Art Craft and Design

**Contact:** Kimberly Winkle

**Mission:** The mission of the School of Art, Craft & Design is to prepare BFA majors for careers in visual art studios, design practice and art education. More broadly, the SAC&D seeks to enable students to discover creative potential, to learn skills design processes, to acquire cultural knowledge, and to develop critical faculties through visual art experiences. The SAC&D also seeks to instill an appreciation of visual arts in all University students, and to broaden the cultural perspective of the community, state, and region. A unique facet of Tennessee Tech is the School of Art, Craft & Design's satellite campus, the Appalachian Center for Craft, which is dedicated to promoting excellence in American craft by providing access to the highest quality professional education in studio crafts, and presenting diverse craft artists, works and events in a community arts context. The ACC's primary function is in support of the BFA degree program as stated in the undergraduate course catalog.

The Bachelor of Fine Art degree is the initial professional degree in art. The School of Art, Craft & Design has developed the degree in accordance with the guidelines established by the National Association of Schools of Art and Design.

### **Program Goals:**

- PG 1: Increase degree offerings to grow enrollment and support a wider range of students such as: transfer, students with broader academic interests. This program goal helps to support Goal 1 of the University Strategic Plan: Education for Life by creating new educational pathways for our current and prospective students.
- PG 2: Increase SAC&D marketing and promotion efforts to increase visibility to support increased enrollment; visibility should be in form of: exhibition, craft fair participation, print materials, mailings, social media presence and monthly e-newsletter distribution. These efforts help to support the Tech Tomorrow Strategic Plan goal 3: Exceptional Stewardship. The increased visibility has potential to grow our fundraising potential/impact which, ultimately, benefits our students and overall financial health.
- PG 3: Develop and support individual studio areas to better support student learning through studio upgrades.
- PG 4: Develop or revise courses to better serve our students' learning and program goals.

### **Student Learning Outcomes**

- SLO 1: Students will have broad understanding of art movements, artists and historical context to deepen understanding. This knowledge informs individual student creative practice and art making. This knowledge is primarily gained through successful completion of Art History courses and performance is measured via final semester grades and mid-semester exams.

- SLO 2: Students will be familiar with non-Western art forms, which provides them with greater sources of inspiration and understanding of the various purposes of, perspectives and motivation for creating art. This knowledge is gained and measured via exam in required Art History courses.
- SLO 3: Students will comprehensively develop as an artist with a competent understanding of process, concept, professional practice, context and problem solving; measured through successful completion of the BFA degree.
- SLO 4: Students will understand the conceptual framework which inspires their artwork and be able to cogently describe and defend it. Measured qualitatively in project critiques and through written artist statements in thesis and design portfolios.
- SLO 5: Students will gain experience and knowledge of the process of mounting a solo exhibition or design portfolio/website. Measured through successful completion of the senior thesis and design portfolio process and coursework. Threshold of acceptance is 70%.
- SLO 6: Graduates will be able to embark and sustain professional careers as practitioners of the arts or arts education. Measured through ongoing contact with alumni and: successful completion of Art Education EdTPA and Praxis (art education majors) and successful completion of Design Portfolio (design majors) and successful completion of Professional Practices of the Artist (studio majors) helps prepare students for a meaningful career in the arts. Threshold of acceptance for the latter three are 70% and state requirements for EdTPA and Praxis.

#### **Assessment Methods:**

##### *PG 1: Grow degree and program offerings*

- *This goal is assessed by whether or not new degrees or programs were developed and, subsequently, approved.*

##### *PG 2: Increase SAC&D marketing and promotion efforts*

- Compare the number of new marketing and promotion initiatives year over year and assess, if possible, effectiveness of initiatives. The goal is assessed by new marketing campaigns and/or effectiveness of ongoing campaigns. Direct and indirect assessment.

##### *PG 3: Develop and support individual studio areas to better support student learning through studio upgrades.*

- Compare the facility status at the start and end of the AY to determine a repair and replacement plan and address priority needs as the budget can support. Assessment is by whether or not the department was able to upgrade its spaces and equipment:

##### *PG 4: Develop or revise courses to better serve our students' learning and program goals.*

- Compare current course offerings to see if the content is relevant and/or if art students display areas of insufficiency.

*SLO 1: Broad understanding of art movements, artists and historical context*

- *Art History Grades*

The art history courses, including the general education Introduction to Art, are firmly entrenched within the historical context. Art movements and styles, artists' biographies, and the analysis of specific works of art are always considered within the socioeconomic, religious, political, and demographic context of a particular historical moment. Engaging the larger historical context while learning about works of art leads students to understand the deeper significance that art has always played in every facet of society. Students demonstrate their comprehension of these concepts through a variety of written and creative assignments and exams. A final grade of 'C' in these courses indicates the student adequately participated and demonstrated understanding, while a 'B' shows a higher level of effort and quality of work. 'A' grades demonstrate the student was engaged, enthusiastic, and performing at the highest level. Direct assessment.

*SLO 2: Familiar with non-Western art forms*

- *History of Craft and successful completion of Survey I or Survey II*

Non-Western art forms are readily incorporated into the art history curriculum. All courses are designed with a global perspective to broaden students' awareness of artists and styles from beyond the European canon. In particular, exams in art history courses include multiple-choice questions testing the students' comprehension of these subjects. Additionally, a deeper level of understanding is tested through essay questions in which students must answer "big picture" questions that require them to explain the historical contexts (political, religious, socioeconomic, etc.) affecting art movements and artists in Africa, China, Japan, India, the Middle East, and Pre-Columbian Americas. These exams and other assessments quantify student comprehension along the following scale: grade of 'C' indicates the student adequately participated and demonstrated understanding, while a 'B' shows a higher level of effort and quality of work. 'A' grades demonstrate the student was engaged, enthusiastic, and performing at the highest level. Direct assessment.

*SLO 3: Comprehensively develop as an artist*

- *Sophomore Assessment:*

Students in a BFA studio concentration with approximately 45 - 60 earned hours are screened for appropriate progress in art foundations classes, general education classes, and classes in the concentration studio. Studio concentration faculty, who also assist in advising, assess whether the level of accomplishment (the quality of the artwork) in at least two classes in the concentration is sufficient to support a recommendation to continue in upper division work in that studio, consistent with the NASAD content and competency standards noted for all professional baccalaureate degrees in art and design.

Regarding the sophomore assessment, conscientious and competent performance in beginning studio classes may produce grades of C or better, and yet not indicate the potential to be competitive in a studio career. Although our sophomore assessment process

is less severe, it is intended to serve a similar predictive function to pre-admission portfolio reviews. This process has encouraged students to change concentrations and even to change majors. This recommendation is denied in a small proportion of cases, and the process has been conceived as an enhancement of advising on an individual basis. If a denial of the recommendation to advance leads a student to a more productive major, it is deemed a successful outcome. However, since Spring 2012 the results of these assessments are being tabulated, to see if trends emerge that are useful for program assessment. Based on faculty discussions, the option to record three responses by the faculty advisor, "Recommended," "Not Recommended" and "Defer," are included in the sophomore assessments. The "Defer" response was added to the original assessment to accommodate situations that arise in cases of transfer students, changes of concentration, and other extenuating circumstances. Spring 2022 results will be updated during fall 2022, after faculty advisors have had the opportunity to assess portfolios and meet with eligible advisees who were identified subsequent to the completion of spring 2022 coursework.

Results are included at the end of the report. Attached are 2 examples of the sophomore assessment form. Direct assessment.

*SLO 4: Understand the conceptual framework of their artwork*

- *Senior Thesis*

The senior thesis process requires the student to propose and develop a one-person exhibition and a portfolio of stylistically unified, technically accomplished work, and to define and defend its conceptual premise(s) to a committee of faculty and sometimes invited professional artists. This process generally involves two six-credit courses completed over two consecutive semesters. The level of accomplishment will be consistent with the NASAD content and competency standards noted for specific baccalaureate degrees in art or design. Students must earn a grade of "C" or better to meet the threshold of acceptability.

The senior thesis process models important professional expectations that studio artists typically experience. In this process, occasionally a student may fail to produce enough work, or work of sufficient quality, and will not receive the minimum grade of "C" in a senior thesis course. However, in a more frequent minority of cases, a student may experience a breakthrough that prompts a change of direction in the work, or encounter an unforeseen technical or aesthetic roadblock that requires more time to resolve, even though the quantity and quality of work is sufficient for a passing grade. The student may be advised by the committee and choose the opportunity to extend the project an extra semester. The senior thesis process is intended to fulfill the professional requirement that an emerging professional artist can present a body of work that projects a clear level of aesthetic and technical resolution. The resulting portfolio will be the basis of judgment for galleries, exhibitions, professional art fairs, graduate school admission, etc. The data that have been collected over the years for the BFA program exist in the form of photographic portfolios and artists statements recording each senior thesis project. A group of qualified art faculty, curators or art dealers can review these portfolios and assess the program relative to other

college programs or professional standards relevant to a given art venue, such as graduate school entrance, juried art shows or gallery representation. During evaluator visits from the National Association of Schools of Art and Design, five years of senior thesis portfolios are presented for review along with student transcripts to monitor adherence to NASAD standards, competencies and expectations. Direct assessment

*SLO 5: Process of mounting a solo exhibition or design portfolio*

The senior thesis and Design Portfolio process models important professional expectations that studio artists typically experience. In this process, occasionally a student may fail to produce enough work, or work of sufficient quality, and will not receive the minimum grade of "C" in a senior thesis course. The level of accomplishment will be consistent with the NASAD content and competency standards noted for specific baccalaureate degrees in art or design. Students must earn a grade of "C" or better to meet the threshold of acceptability. Assessment takes place over the course of 2 semesters in individual thesis and/or portfolio meetings with their respective faculty member or faculty committee. Students are assessed on the strength of their; progress, conceptual framework, execution and completion. Thesis rubric and portfolio rubric attached. Direct assessment.

*SLO 6: Embark and sustain professional careers*

- *Praxis II Exam:*

Praxis II Exam - BFA students in the Art Education concentration take the Art: Content and Analysis as monitored by the College of Education Office of Teacher Education, as a requirement prior entering Residency I and Residency II as a teacher licensure candidate. Direct Assessment.

Annual results are provided at the end of this report. The threshold of acceptability is defined by the State of TN.

- *Alumni Surveys:*

Alumni Surveys - Ongoing contact and feedback from BFA alumni has made it evident that a reliable School of Art, Craft & Design alumni survey will provide better data to assess student learning outcome 6 adequately. The departmental staff has recently completed a comprehensive update of alumni contact information. An appropriate means of providing a departmental alumni survey process was reviewed by the art faculty subcommittee on assessment during the 2014-2015 academic year but the survey has not yet been administered. The unit needs to discuss and determine plans for implementing the survey. Indirect assessment.

## **Results:**

### *PG 1: Develop new degrees and programs.*

- We proposed a new Bachelor of Science Degree in Studio Arts. The proposal was approved internally at TTU, by NASAD (Art accrediting body) and has received full approval by THEC. The new Bachelor of Science in Studio Arts is effective August 1, 2022.

### *PG 2: Increase SAC&D marketing and promotion efforts*

- We procured a billboard on I-40 and Willow Ave. Westbound to promote our Craft Center programs. This is also, by default, brings attention to our SAC&D academic program. As a result of the billboard, we've experienced increase in overall foot-traffic at the Craft Center.
- We procured a billboard on HWY 56 South at I-40 to promote our Craft Center programs. This is also, by default, brings attention to our SAC&D academic program. As a result of the billboard, we've experienced increase in overall foot-traffic at the Craft Center.
- Continue to increase social media presence to promote faculty and student activities, success and accomplishments.
- Engaged in marketing and promotion events, such as TN Craft Fair in Nashville, which were paused during the height of COVID.
- Created and paid for an advertisement in American Craft magazine to better promote our unique academic craft program and our non-academic craft workshops.
- Became a member of the James Renwick Craft Alliance to bring better visibility to our academic craft program.

### *PG 3: Develop and support individual studio areas to better support student learning through studio upgrades.*

- The SAC&D replaced outdated and ineffective furniture in the front design studio at the Appalachian Center for Craft. The new furniture is better suited for engaged hands-on making which creates a safer and more professional workspace for students to engage in rigorous creative inquiry.
- The SAC&D purchased a large format intaglio printing press to be positioned to increase curricular offerings in the printmaking studio.

### *PG4: Develop or revise courses to better serve our students' learning and program goals.*

- The SAC&D created a new course, ART 1320: Creative Studio to provide students with opportunities to grow their creative thinking. The outcome is for students to have better skills at ideation, iterative thinking and completion of original works.
- The SAC&D created two new Art History courses to better serve the composition of the department. In 2021-2022 it added: History of Design, Medieval Art History and revised the History of Craft course to increase relevancy.

*SLO 1: Broad understanding of art movements, artists and historical context*

Since 2015-2016, there's been growth in the overall success rate of students in our Art History Survey I and II courses, which provides all of our majors with broad understanding of a wide range of art movements, artists and historical contexts.

*SLO 2: Familiar with non-Western art forms*

Non-Western art forms are embedded into all of our Art History courses, however our revised History of Craft course focuses the most on non-Western art. Previously, we offered Ancient Mesoamerican Art History which focused solely on non-Western. But, the faculty member who taught that course retired in 2021, thus the course is no longer offered.

*SLO 4: Understand the conceptual framework of their artwork*

Senior thesis students are required to submit a printed portfolio which contains written description of the conceptual framework that inspires their work in the form of an artist statement. Exhibition, thesis or design portfolio and successful oral defense of their concepts is required for successful completion of senior thesis and design portfolio coursework for which the threshold is “C”.

## **Modifications for Improvement**

### *Program Goal 1*

We continued seeking the addition of a new Bachelor of Science in Studio Art degree offering to augment our pre-existing professional BFA Degree. The new program will provide more curricular flexibility, opportunity to complete a suite of varied courses to better support the career and creative interests of our students and better serve a growing population of transfer and diverse students, such as non-traditional and/or veteran students, ultimately having a positive effect on enrollment, recruitment and retention within the School of Art, Craft & Design.

A new Bachelor of Science degree proposal was fully approved by THEC and NASAD, our accrediting body, and is effective August 1, 2022.

### *SLO 6*

Praxis specific activities are embedded into art education courses, especially ARED 2020 and ART 3205. Starting 2017 - 2018, it was observed that art ed students were weak in art history, responding to art, and writing/talking about their own art and practice. In Spring 2020, a weekly Special Problems course was offered for art ed juniors who were preparing to take the Praxis exam in March. The course covered general art history, mostly timelines and non-western art, art techniques, essay writing, practice exams, and study tips. Students completed specific activities and played study games every week, and they organized outside of class study sessions, too. All students passed Praxis in Spring 2022. Because of the successful Praxis outcome that the SAC&D intends to continue to offer the Special Topics Course

The SAC&D intends to revisit the Alumni survey instrument that was developed in 2014 to assess its current relevance and to establish a plan for implementation of the survey. It was intended to move forward on implementing this instrument in 2021-2022 but the receiving full approval of the BS degree took priority.

### *SLO 4 & 5*

Better course definition and structure were added to the Design Portfolio course which has resulted in increased productivity. Better defined timelines and objectives are the key features of the changes. These changes took place in 2019-2020 in effort to provide clarity, increase productivity and definition to the design portfolio coursework and to liken it to the senior thesis process that exists in the other studio areas. These changes have benefited students who previously cited concern about lack of clarity regarding project description and assessments. We will continue to monitor and modify where needed.

The senior thesis experience could benefit by adding better defined benchmarks and timelines. Additionally, the thesis experience should be reviewed to determine if additional rubrics should be created to individually assess: artist statement, exhibition, and artwork. In recent year we have observed students struggling with the senior thesis process, therefore an ad hoc committee has been established to assess the current process and suggest modifications for improvement; this process is ongoing and revisions have not yet been finalized nor actualized.
