Abstract:	The Newsletters and Publications collection is an accumulation of various publications made by Tennessee Tech University and other institutions relevant to the region dating from 1951 through 2020. The records are files of text arranged in alphabetical order by title of publication.

[^ Return to Table of Contents](#)

Scope and Contents

This collection is comprised of various newsletters and publications distributed from Tennessee Technological University as well as other institutions in or relevant to the Upper Cumberland area, which date from 1951 through 2020, with the bulk of the records dating from the 1970s through the 2000s. The records are all text-based, and include department newsletters, faculty and staff memos, student literary journals, library professional development newsletters, student-made publications, calendars, and athletics newsletters. The records show a wide variety of happenings at Tennessee Tech University and around the Upper Cumberland. They reflect how the university has changed over time and what students were focused on in different eras. There are several gaps within folders due to the collection being put together generally. The collection is arranged in alphabetical order by title of publication.
