Closeout within 90 days from end of project

Policy Compliance

- **2 CFR 200 “Uniform Guidance”**
- **Expanded authority – prior approval matrix**

Key Roles and Responsibilities

- The Principal Investigator (PI) has the **primary responsibility** for the scientific, technical and fiscal leadership of the project.
- The Dean and Department Chair approve that PI is qualified to serve and approve any cost share commitments. Department Chair also approves any release time and ensures release occurs.
- The OoR assists PI in preparing proposals and implementing awards that are compliant with relevant government laws and regulations, and TTU policies and procedures.
- The Project Bookkeeper assists the Principal Investigator with budget monitoring to ensure expenditures are authorized and develops and maintains document and record management.
- Grant Accounting invoices and prepares and submits all financial reports as articulated in the award documents.

See OoR website for a more complete list of roles and responsibilities:

<https://www.tntech.edu/research/researchcompliance/roles-and-responsibilities.php>

OoR Post-Award Services

- Process all awards from external sponsors
- Negotiate and execute sponsored agreements
- Provide bookkeeping assistance and training
- Ensure sponsored activities are in compliance with TTU, state, sponsor, and federal regulations
- Assist faculty in all matters regarding intellectual property protection and commercialization.

Required Training

TTU subscribes to the Collaborative Institutional Training Initiative (CITI) to provide training in the Responsible Conduct of Research, Animal Subjects, Human Subjects, and Export Controls.

- All personnel on funded grants are required to complete training in the Responsible Conduct of Research (RCR).
- Additional training modules are required for individuals dealing with human subjects, animal subjects, and export controls.
