

Coding is Our Only Hope!

Coding means telling a computer what to do by giving it commands to which it responds. You can help Rey and BB8 gather materials for the rebellion while you learn to code.

What you need:

- ★ Computer or laptop
- ★ The link below titled "Star Wars: Building a Galaxy with Code" (studio.code.org/s/starwarsblocks/stage/1/puzzle/1)

What to do:

- ★ 1. Be sure to read Rey's directions first. Move blocks to set the code and then select "Run".
- ★ 2. You can select a level from among the circles at the top of the screen.
- ★ 3. There are 15 levels, but you can repeat levels if you want.
- ★ 4. You can find similar games on the Hour of Code website (code.org).

Questions to ask:

- ★ Which levels were hard or frustrating?
- ★ What mistakes did you make? And what did you learn from your mistakes?
