

Phases of the Moon

For this activity you will need one piece of blank paper, scissors, and a writing utensil.

Using the guide attached, fold and cut your paper to create a foldable. Fold your paper according to the solid lines, and cut your paper according to the dotted lines.

With your paper folded, write the eight moon phases, one on each flap.

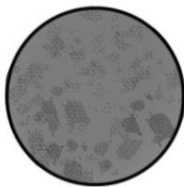

Open each flap, one at a time, and draw the correct moon phase underneath.

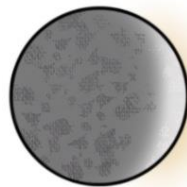

Look at the moon at least once per week and use your new tool to help you determine the phase of the moon.

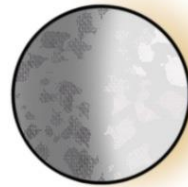

Moon Phases

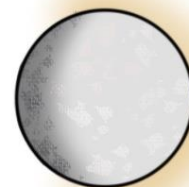

New Moon

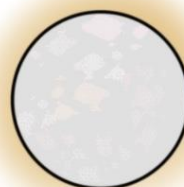

Waxing Crecent

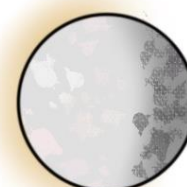

First Quarter

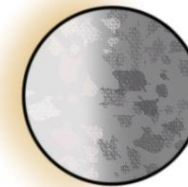

Waxing Gibbous

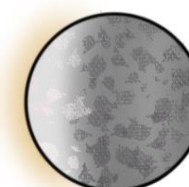

Full Moon

Waning Gibbous

Last Quarter

Waning Crecent
